

# UNSCRAMBLING SENTENCES

**"Put these words in order to make two sentences."**

This activity is more challenging!

The following groups of words can each make two sentences. One of the sentences is a statement and one is a question. The student may need assistance to create a question. You could say, "This sentence tells us something. Can you make a sentence that asks something - can you make a question?"

Read the words to the student.

After the student makes the sentence, say,

"Tell me your sentences..... tell me if they make sense."
